AI property analyst · cites sources · not advice

Agar bank tenant chala gaya to kya hoga?

The lease locks the bank in until 2027 with 6 months' notice after that `lease §4.2`. The trustee holds a 6-month rent reserve `trust deed §9`, and similar Gulberg offices re-let in about 4 months `valuation p.12`. During a vacancy rent would pause, and the token price could fall `risk §2`.

I have an account

Phone — 2 CNIC + NADRA — 3 Selfie — 4 On-chain identity — 5 Bank account

Verify your identity

About 3 minutes. We never store your full CNIC; only the last digits and a one-way fingerprint.

Full name (as on CNIC)

Ayesha Malik

CNIC number

35202-1234567-1 ✓ NADRA match

Mobile

0300-1234567 ✓ verified

Selfie liveness

Turn your head slowly...

I accept the terms and the risk statement

Verify and create my account →

What happens on the blockchain

1. A custodial wallet is created for you (keys in an HSM, never on this device) — 0x9a4c…
2. Your ONCHAINID identity is deployed — ONCHAINID
3. KYC and AML claims are signed by the claim issuer — topic 1, 2
4. You are registered for Pakistan (586) in the token's identity registry — RegistrarGuard

Why do you need my CNIC?

Property tokens are securities; only identified Pakistani investors can hold them SECP rules. The token checks your verified identity on every transfer ERC-3643.

Your data

- ✓ Full CNIC and phone never stored
- ✓ Encrypted at rest and in transit
- ✓ Delete your data on request (after legal retention)

6. Public website · Sign in

✓ Amount — ✓ Pay — 3 Issue — 4 Done

1 · Amount

Tokens

20,000 — Rs 500.00 each

You pay	Rs 1,00,00,000
Monthly rent (est.)	Rs 76,667
Holding after	25,099 / 100,000 (10% cap)

- ✓ Verified investor on chain
- ✓ Within 10% holding limit
- ✓ Within trustee cap (367,896 left)
- ! Above Rs 50 lakh: two officers approve before issue

2 · Pay with Raast

To	Trustee escrow · CDC
IBAN	PK36 SCBL 0000 0011 2345 6702
Reference	RAAST-4F1A9C2E7B10
Status	✓ received 12:04:18

Money goes to the trustee's escrow, never to the platform. Recorded in the ledger before any token exists.

3 · Issuing your tokens

- ✓ **Payment recorded in the ledger** — 12:04:19
  journal #4,812 · subscription_paid
- ✓ **Mint command queued (outbox)** — 12:04:19
  same transaction as the ledger entry · refId 0x7a3e…
- ✓ **Policy checks passed** — 12:04:19
  target · limits · verified · cap · simulation
- ✓ **Operations officer approved** — 12:11:02
  Ana Siddiqui · hardware key
- … **Waiting for the trustee's approval** — pending
  1 of 2 approvals · usually under 30 minutes
- 5 Signed in the HSM, recorded, broadcast, confirmed in ~2 s

Why is there a wait?

Issues above Rs 50 lakh need a second person, the trustee, to approve `policy issuance.mint v2`. Your money is safe in escrow meanwhile, and if the issue is rejected it is refunded in full `ADR 0004`.

Investor mobile app

Same design system as the website. Sign-in with passkey and biometrics, Raast payments, push alerts for rent and approvals, and an AI assistant in English and Urdu. Figures are samples; the AI is informational, not investment advice.

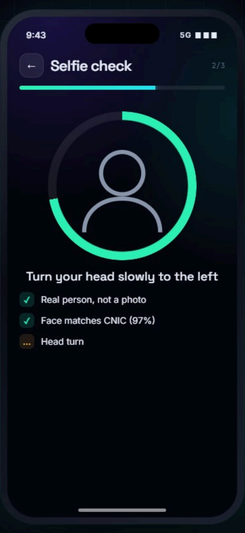

1 · ONBOARDING

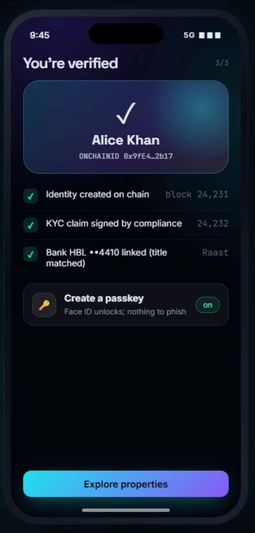

Welcome
Animated chain mesh, one clear promise

CNIC scan
Live edge detection, NADRA check

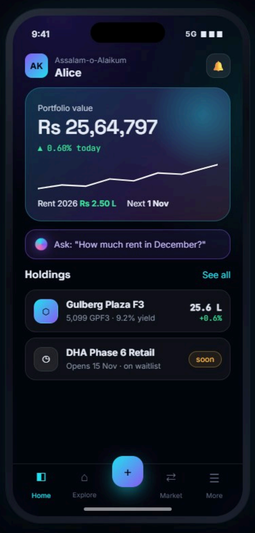

Liveness
Progress ring, guided movement

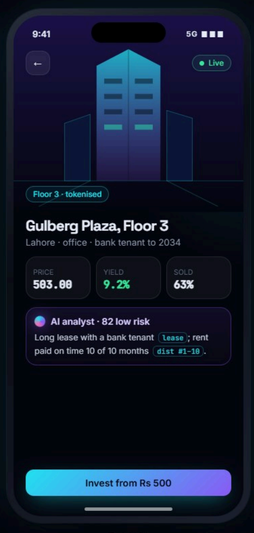

Verified on chain
Identity and bank linked, passkey created

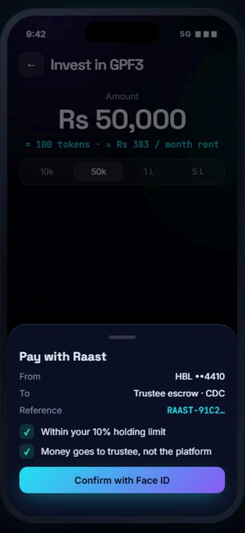

2 · INVEST AND EARN

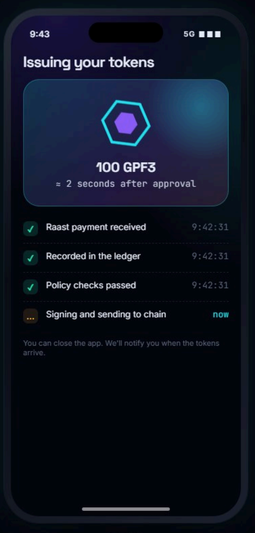

Home
Glowing value card, AI ask bar, holdings

Property
Hero illustration, key numbers, AI analyst

Invest
Quick amounts, Raast sheet, Face ID confirm

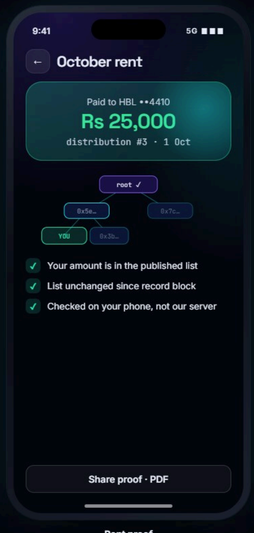

Issuing
Live steps, every one recorded

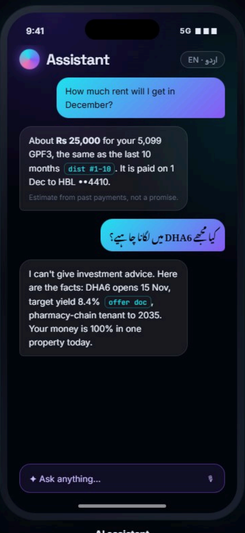

3 · MARKET, RENT AND ASSISTANT

Market
Candles, best bid/ask, buy/sell

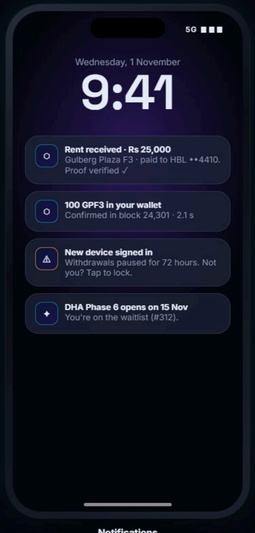

Rent proof
Merkle proof verified on the device

AI assistant
English and Urdu, cited, never advice

Urdu mode
Full right-to-left layout, Nastaliq type

Notifications
Rent, issuance and security alerts

PT Control

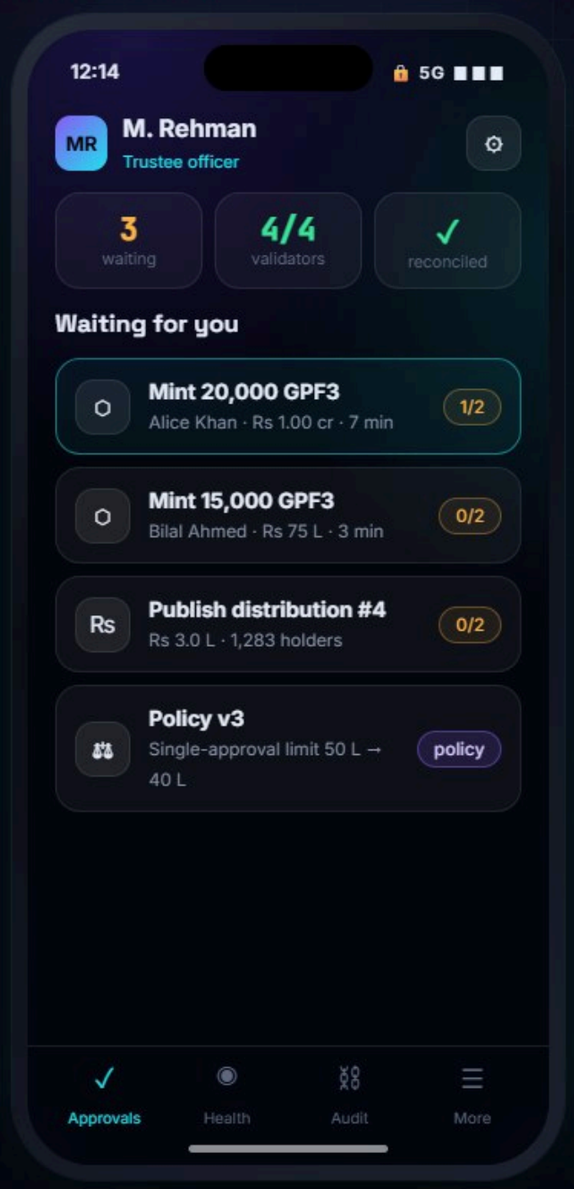

← Investor app

INTERNAL · managed devices only

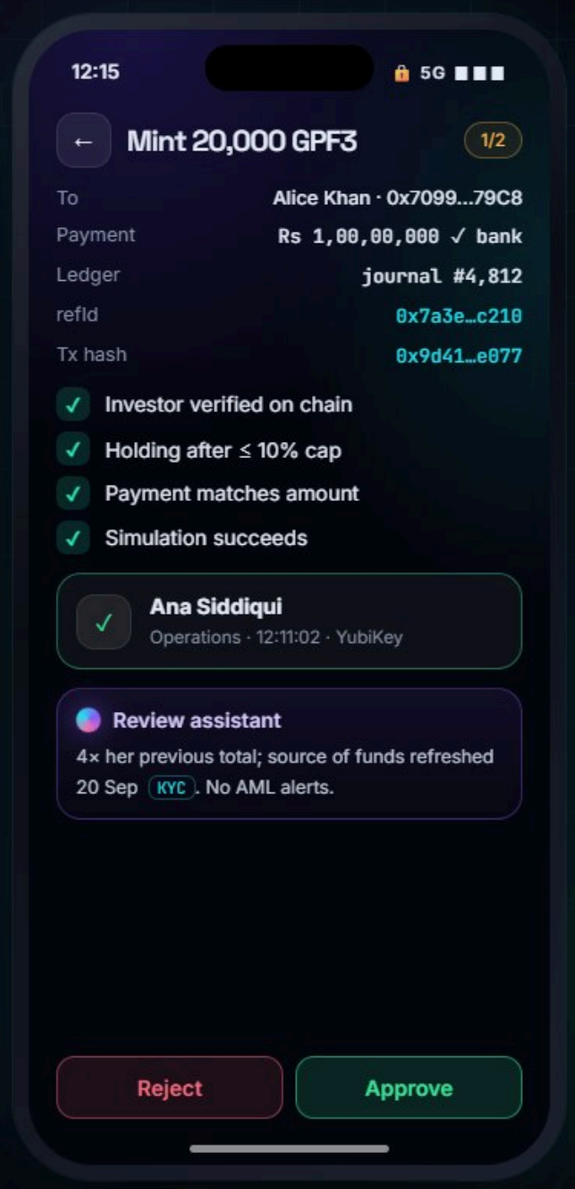

Officer mobile app

For operations, trustee and compliance officers on company-managed phones. Approvals still need two different people, and every approval is signed with a hardware key over NFC, so a stolen phone alone cannot approve anything. Every action lands in the hash-chained audit.

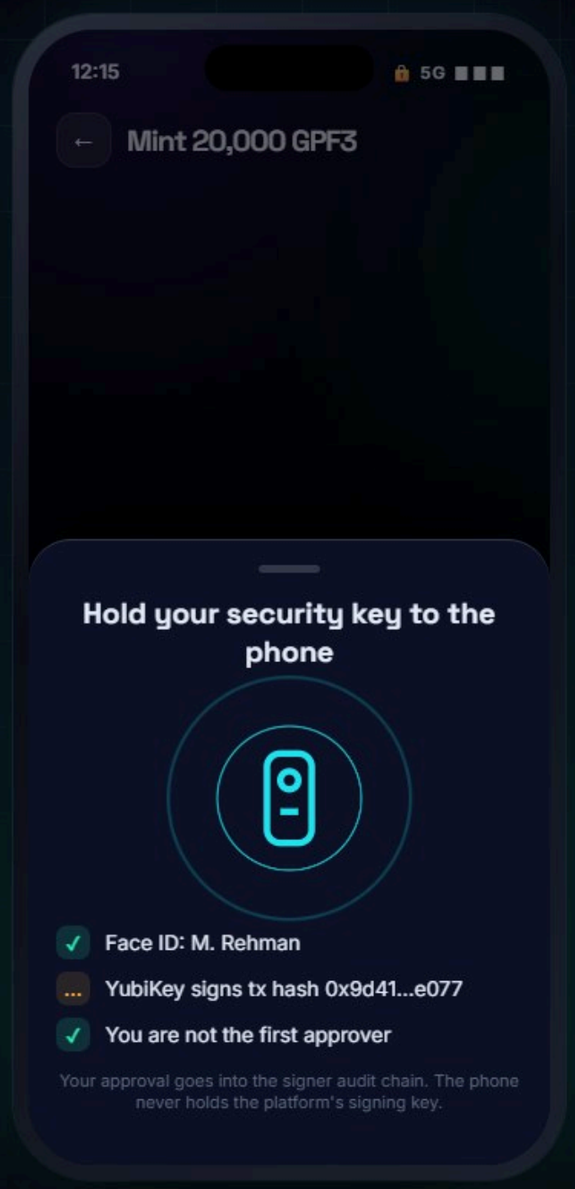

APPROVE ON THE GO

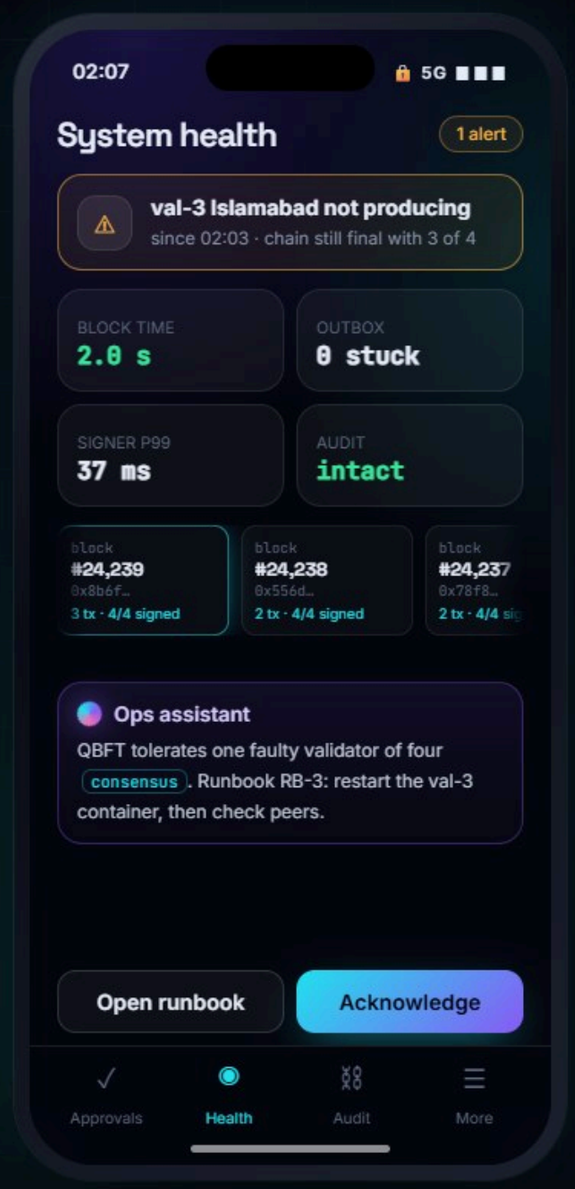

Approvals inbox
Everything waiting, with approval counts

Request detail
Exact transaction, checks, who approved

Hardware key
Face ID plus NFC key tap to approve

Health and alerts
On-call alert with runbook
